Made in Japan

Cut in 1 second!
Battery Powered Branch Secateurs
FUTOMARU 40

Cut in 0.5 seconds!
Battery Powered Branch Secateurs
FUTOMARU 27

Li-ion
Li-ion battery

14.4V
Voltage

Futomaru 40 for more power, Futomaru 27 for more speed.

Battery Powered Branch Secateurs

FUTOMARU 40

Thicker!

Cut thick branches in no time!

Cut in **1 second!***

MAX
40mm
(Live Tree)

× **900****

15mm × **2000**

* Two seconds per cycle.

** Depends on condition of the battery, type and state of the wood, and working conditions.

Battery Powered Branch Secateurs

FUTOMARU 27

Faster!

Faster cut for more efficiency!

Cut in **0.5 seconds!***

MAX
27mm
(Live Tree)

× **6000****

* One second per cycle.

** Depends on condition of the battery, type and state of the wood, and working conditions.

Futomaru 40
MAX **40mm** (Live Tree)
Cut in **1 second!***
* 2 seconds per cycle.

Futomaru 27
MAX **27mm** (Live Tree)
Cut in **0.5 seconds!***
* 1 second per cycle.

Just pull the trigger.

Specification

■ DC 14.4V Li-ion battery 7.0Ah ■ Charging time: 2 hours*

* This is a reference charging time when fully discharged. Actual charging time differs from the condition of the battery.

■ **Just pull the trigger!**
Cut thick branches in no time!
Pull and release the trigger to stop and return the operation at any time since the trigger and the blade are synchronized.

■ **Comes with crossover belt!**
(0.75M model doesn't come with the belt.)

■ **High-grade steel blade and coated/finished with Teflon!**

■ **The separated battery makes it easier to handle!**
